

WITH THE INTRODUCTION

of the new bike models and engines, the 2017 FatBook™ Update is filled with more that's brand new than any other Update catalog before.

We've updated fitments, added new, never-before-seen products and even tweaked some existing products to better serve you and your customers.

If your customers are looking for
the latest products and fitments for
Evolutions, Twin Cams and the all-new
M-Eights, be sure to show them this
FatBook Update.

Combine it with the 2017 FatBook and you have everything you need to give your customers the ultimate buying experience!

dragspecialties.com | #SINCE1968

IMPORTANT INFORMATION:

EMISSIONS AND NOISE REGULATIONS

NOTE: The California Air Resources Board ("CARB") and/or the Environmental Protection Agency ("EPA") do not permit the use of aftermarket emissions-related part(s) that alter the performance of OEM emissions-related devices unless CARB has issued an Executive Order, other than on racing vehicles on closed courses. Check your local laws and manufacturer's information. More California exhaust information is available at www.arb.ca.gov/.

NOTE: Aftermarket products, including but not limited to exhausts, catalytic converters, oxygen sensors, fuel/air controller modules, air filter kits, camshafts, O_2 eliminators, and carburetors and jet kits which alter, modify, or replace emission control devices or systems of an originally compliant highway motorcycle, are not legal for sale or street use in California unless they have been issued a CARB Executive Order. Aftermarket emissions-related products which have not been issued an Executive Order or which are not aftermarket Replacement Parts, as defined in Title 13, California Code of Regulations, Section 1900(b)(2), are authorized for closed circuit race use only. Products shown may be designed, manufactured, intended and sold for closed circuit race use only, and use of the same on public roads or lands may be a violation of local, state and/or federal laws. See manufacturer's information and state and local laws to determine what is authorized for your use on your vehicle.

The following emissions-related defined terms are used in this catalog (PARTS WITH THE FOLLOWING DESIGNATIONS IN THIS CATALOG ARE NOT ILLEGAL FOR SALE IN CALIFORNIA UNDER CARB REGULATIONS):

- "CARB E.O." means the specified Executive Order issued by CARB. An Executive
 Order constitutes an exemption by CARB from CA Vehicle Code 27156 and 38391,
 for sale of the part number for the make/model/year fitment(s) specified in the
 Executive Order.
- "Replacement Part" means any aftermarket part intended to replace an original
 equipment emissions-related part and which is functionally identical to the original
 equipment part in all respects which in any way affect emissions (including
 durability), or a consolidated part.
- •"Qualified Manufacturer Declared Replacement Part" means any aftermarket part intended to replace an original equipment emissions-related part and which is functionally identical to the original equipment part in all respects which in any way affect emissions (including durability), or a consolidated part that has been evaluated and declared by the manufacturer to meet this definition and carry this categorization and designation label. This manufacturer has declared in writing that it has documentation, based upon sound engineering judgment, indicating the replacement part does not reduce the effectiveness of any required emission control device and it does not cause the modified vehicle/engine/equipment to exceed applicable emissions standards for that make/model/year fitment(s) advertised.

NOTE: Products shown may not conform to federal, state or local emissions and/or noise regulations.

WARRANTY

There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e., cam timing, carburetor, etc., and is not caused by defective manufacturing. See the Chemicals and Lubes section for products that will help prevent or remove blueing.

Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

•The Sport Flare™ option is a more streamlined version of our Flare™ Windshield; offers radical curves and a sportier stance

- •Complements the lines of the new FLTR fairing with a more aggressive profile and adds stability and handling with improved air management
- •The patented design features "hips" at the sides that re-route the wind away from riders while adding downforce to the front-end of the motorcycle to improve stability vs. riding with the stock windshield
 •The flip at the top of the Flare™ redirects air back as clean, less turbulent air for rider and passenger
- Wind tunnel designed and tested
- •Lexan® Polycarbonate with FMR hard coating is used to create these custom-molded designs with unmatched durability
- •All are predrilled for easy mounting using stock windshield hardware
- . Made in the U.S.A.

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S. And also under International Patents: 324093, 324094, 325192.

DOMINATOR SOLO SEATS AND PILLION PADS

•Hybrid seat design combines SaddleGel™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson riders with unparalleled comfort, control and a modern style

•Seats using Saddlemen's Gel Channel (GC) technology have a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle for a longer time

•In addition to pressure relief, the GC-style center of the seat provides an air-flow passage

 The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks

•Every cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking

•Using a very large GEL pad for additional foam support and vibration damping, these GC-style seats offer the comfort levels normally found in larger touring seats

SUG. RETAIL

\$475.00

•Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding

• Easy to install; some seats and pillion pads include additional mounting hardware as needed

•The matching optional pillion pads also feature GEL and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

headpipes designed for maximum performance

•Included heatshields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding

•Tapered, megaphone-style, short muffler body; system mounts off of transmission for that truly radical short look

•System comes with 18mm and 12mm Oxygen ports with sensors, adapters and plugs

•Includes removable baffle and end cap

•Made in the U.S.A.

PART # DESCRIPTION SUG. RETAIL For 95-16 FLHT/FLHR/FLHX/FLTR 1800-2172 \$1,199.95

POWER COMMANDER V

Fuel and timing control

 Rev Xtend increases Rev limit FUEL/AIR

•The Power Commander V can read the exact engine temperature through the bike's ECM, which allows the tuner to choose how much fuel to add during cold starts

Cold starting on heavily modified engines should be more controllable and easy to adjust

USB powered from computer

•Two position map-switching function built-in (switch not included)

•Can add any SPST switch and toggle between two different fuel/timing maps

Gear/speed input allows for map adjustment based on gear

Analog input allows user to install any 0-5 volt sensor

•Build an adjustment table based on analog input, such as boost or temperature

•Power Commander V is capable of allowing each cylinder to be mapped individually and for each gear with the gear position input connected

•Ten throttle position columns

World's largest dyno tested map database

Enhanced "accel pump" utility ·Made in the U.S.A.

PART # DESCRIPTION SUG. RETAIL For 16-17 Dyna Glide w/ 110" motor 1020-2702 \$399.95

THUNDERMAX ECM WITH INTEGRAL AUTO TUNE SYSTEM

•ThunderMax ECM with Auto-Tune module mounts conveniently in place of the factory ECM and plugs in to the existing harness

•Utilizes wide-band O, sensors and works as a closed-loop control system to continuously self-adjust and properly tune the motorcycle's air/fuel ratio for all riding conditions

ulletEasy installation: replace the factory ECM, install new $oldsymbol{0}_2$ sensors and harness, load the correct map for your bike, and ride

•Includes ThunderMax ECM with Auto-Tune Module, plug-in harness and two wide-band sensors, TMax software and communication USB cable, Quick-Start Easy Install and Comprehensive User's Manual, technical support and free software and updates

•Hundreds of maps available to download for your bike (based on model, engine size, exhaust system air cleaner, pistons, cams, etc.) - load the map of your choice and the integral auto-tune will do the rest

 Improves throttle response, exhaust sound and driveability •Does not require dyno tuning

•Rider can adjust idle speed, rev limit and speedometer calibration

•Adjustable front and rear cylinder AFR maps, ignition timing (spark) maps, and startup maps

•Works with all popular exhaust systems and is compatible with high-performance camshafts

Supports turbo, nitrous and supercharger applications

•Software program allows live monitoring, recording and examination of diagnostic codes and datalogs including number of starts, engine temperature and rpm operation

New maps, software, firmware updates, map analysis and tech support available online at no charge

Made in the U.S.A

NOTE: Because of possible clearance issues, some aftermarket exhaust systems may require modifications or relocation of their O₂ sensor port bungs.

1022-0190 1022-0182 **CABLE OPERATED THROTTLE** 1022-0193 **HOG THROTTLE BODIES** More air flow for improved performance •Choose from 58mm for stock or mildly built engines, or the whopping

66mm for big inch engines

•Requires throttle body specific Stealth air cleaners (available separately) for 58mm and 66mm bodies

- One-piece throttle body/manifold design for easy installation and stock appearance
- Compatible with stock sensors, fuel rail and throttle cables
- •Sealed, stainless steel throttle shaft with dual roller bearings for smooth operation and no air leaks
- •Black powder coat finish matches stock
- •Throttle bodies include hardened steel flanges and seals

NOTE: Some S&S heads have additional material on the manifold surface to allow the use of a stock length manifold (405) on a 124" engine. If you are not sure which manifold should be ordered, check fitment with the stock manifold first.

MONSTER SUCKER AIR CLEANER KITS WITH COVER

•Monster Sucker kit features our patented Big Sucker "hidden breather" technology and more filter surface area for maximum performance

- ·Hidden breathers are O-ringed at the heads and exit out the mouth of the throttle body to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- •Filter features a built-in inverted top to pull in air not only from all sides of the filter but also from the front, which results in more performance-gaining airflow
- Each filter is constructed from synthetic material that is water-resistant, which in most cases eliminates the need for a rain sock
- •Filters are re-usable and do not require oil, just rinse and re-use
- •Kits include Arlen Ness forged billet covers
- •Fit with fairing lowers

- •+30% increase in HP and torque over stock
- •Short stroke for less vibration and longer engine life
- •Shorter than stock engine height for easy installation
- •Does not include carb or ignition; use stock or aftermarket carburetor and air cleaner
- •High volume, high-pressure (HVHP) oil pump
- •Durable S&S 3-pc. flywheels
- Performance 585 cam & valve springs
- $\bullet 4^{1}/8$ " x $4^{1}/8$ " bore and stroke
- 9.8:1 compression ratio
- •Black Edition, includes all the features of standard S&S engines, with gloss black engine covers in place of the standard chrome covers
- ·Made in the U.S.A.

POWER PACKAGE

- Get everything needed in one package
- •Includes an S&S 4" big bore cylinder kit with 10.5:1 pistons, S&S 585 easy start cams, S&S Quickee Pushrods, and S&S Premium Hydraulic tappets to make the most of the added displacement
- •TC3 cam support plate and TC3 oil pump to ensure consistent oil pressure and engine longevity
- •Increases displacement to 100" (99-06) or 110" (07-17)
- •Cylinders fit to pistons; no machining required
- •All parts required to upgrade to gear drive cam or hydraulic tensioners in one easy to order part number

NOTE: 99-04 Twin Cams will require the additional purchase of valve spring kit PART #0926-2722. Pinion shaft runout must be less than .003" to use gear drive cams. Kit not available to fit 06 Dyna models.

106" HOT SETUP KIT

- •Increased fin area for better heat dissipation
- •Increase bore size from 3.750" to 3.927'
- •43/8" stroke, 10:1 comp. w/ stock heads
- •Easy installation; no machining or rebalancing required
- Forged coated pistons are compatible with stock or S&S Super Stock 79cc and 89cc heads
- Valve pocket recessed in S&S pistons are enlarged for oversize valves and higher lift cams
- •Maintains stock engine height and stock piston weight
- •11 fins and full fin pattern on cam side of cylinders closely resembles OEM shape
- Kit includes; S&S cylinders with gaskets, piston set with rings, top end gasket kit, pushrods, tappets, 585CE chain-drive easy start cams and instructions
- •A fuel system is not included

SUPER STOCK™ T2 ENGINE CASES

- •Stock or 41/s" bore crankcases to be used as a foundation for a custom engine or replacement for T111, T124, or T143
- •Stock looking, but stronger; thicker wall sections and superior 356-T6 aircraft grade aluminum
- Tough powder coat finishes
- •Reinforced front motor mount for extra strength
- •Timken® sprocket shaft bearing Strong enough for the most demanding applications
- •Clearanced for strokes up to 413/16" and cams up to .720" life
- •Includes pinion and Timken® bearing
- •Manufacturer's Statement of Origin (MSO) included
- •Includes studs and cam bearings installed
- •Crankcases are specially machined for the new S&S oil line installation kits sold separately
- •Made in the U.S.A.

NOTE: Requires Oil supply line installation kit PART #s 0950-0848 or 0950-0849.

PART #	DESCRIPTION	SUG. RETAIL
FOR 06-17 DYNA MODELS		
0920-0155	Stock bore, wrinkle black powder coat	\$1,295.95
0920-0156	Stock bore, silver powder coat	1,295.95
0920-0157	4 125" bore w/ stock bolt pattern, wrinkle black powder coat	1 395 95

SPECIAL APPLICATION CRANKCASE

- •Cam chest is moved outward .250" to allow crankcases to handle large cylinder bore sizes
- Relocated cam chest oil pick-up increases gear case scavenging and virtually eliminates oil carry-over at sustained high rpm
- Machined to accept the stock oil filter assembly used on 92-99 Big Twins
- A ported breather passageway and a machined breather window allows the air/oil mist to flow from the flywheel cavity to the cam chest of the engine with the least possible restriction
- Crankcase venting can be achieved via two crankcase breathers, the cylinder heads, or both;
 S&S recommends using both crankcase breathers in engines larger than 95"
- •Clearanced for strokes as long as 5"
- Machined for installation of a crank position sensor which allows the cases to be used in EFI applications and also allows easy installation of S&S IST Ignition and VFI Fuel Injection; a plug kit is included for applications that do not use a crank position sensor

OIL FILTERS

482 CAMS

- •Bolt in cam for 00-17 models only •Recommended for S&S 883 to 1250 conversion kits
- Best performance gains 3500-6500 rpm
- Compatible with stock valvesprings and stock non-adjustable pushrods

500 CAMS

- •Bolt-in cams that provide excellent torque with stock or ported heads
- •Recommended for modified engines up to 89" displacement and 9.0:1 to 10.5:1 compression ratio
- •Will work in 89" to 100" engines with less than 9.0:1 compression
- •Normal clearancing checks recommended
- •2000-6000 rpm
- •Works with stock valve springs and stock non-adjustable pushrods

NOTE: 00-17 XL and 00-02 Buell models with stock flywheels require use of 91-99 style pinion gear PART #s 0921-0001 thru 0921-0005, available separately.

POLISHED BILLET OIL PUMP KIT WITH UNIVERSAL COVER AND DRIVE GEARS

- •HVHP oil pumps have a new gear tooth profile with fewer but larger teeth that provide an increased oil volume for both supply and return-side of the pump
- •Supply-side gears are 9% wider than stock
- •Return gears are 28% wider than stock to ensure that the additional volume of oil supplied to the engine is scavenged and returned to the oil tank, reducing the amount of oil in the crankcase breather
- •Universal style cover has a number of oil feed and return options allowing maximum flexibility for custom installations
- •Available as a kit or oil pump only
- •Kit includes supply gears, return gears, drive shaft, drive shaft keys, drive shaft snap rings, check ball, check ball spring, pressure valve spring, cover screws with 0-rings, miscellaneous hose fittings, plugs, screws, gaskets, mounting hardware, oil pump drive shaft gear, oil pump pinion shaft gear, S&S breather gear and shim kit and instructions
- Made in the U.S.A

NOTE: Pinion shaft gears included in this kit fit stock 84-89 pinion shafts and S&S pinion shafts for 84-99. Will not fit stock 90-99 straight pinion shafts.

ELECTRIC EASY SHIFT™ SPEED SHIFTER KIT

- •For speed, comfort and fun
- •Electronically suspends the ignition system, allowing the transmission to smoothly shift up or down with just the push of a button
- •Shift up at partial or full throttle and back down at the touch of a button
- •There is no need to use the foot shifter and the clutch is used only when starting or stopping
- •Works for normal street riding or full-throttle shifting
- •Also a perfect match for male and female riders who own bikes that require a lot of hand strength to pull in the clutch lever
- •OEM shifting ability is retained after installation
- •Includes a dual-button handlebar control, a shift cylinder plated with a lustrous chrome finish, bolt-on shift cylinder support bracket and a state-of-the-art control module that sends a quick signal from the handlebar control to the shift cylinder
- •Also included is the electronic ignition kill module and step-by-step instructions with photos for easy installation
- Made in the U.S.A

Pinch bolt is included

PART #

1602-1094

REAR DRIVE BELTS

- •BDL now offers Gates carbon X3N material for its rear belts which is far superior to Kevlar® cord belts
- •The same brand used by Harley-Davidson since 1980 due to its reliability
- •Teeth on the belts have a slick surface that is easy on pulleys
- •Outer surface of the Gates belt is ribbed to help with flexibility
- •Higher reliability due to increased length stability and better pitch
- Higher resistance to humidity
- •Higher tensile strength and robust construction
- •Made in the U.S.A

NOTE: No warranty claims are made or implied.

PRIMARY GASKET KITS AND OIL CHANGE KITS FOR BIG TWIN AND XL

- •Cometic's proprietary AFM (Aluminum Foamette Material) gaskets feature an aluminum core with a chemically blown, compounded nitrile synthetic rubber bonded to the outside
- •Gaskets have resistance to temperatures of more than 2500°F
- •Have an 85% shape-recovering while maintaining strong torque retention ideal gasket material for machined surfaces
- •Does not require gasket sealer
- •Primary gasket kits include all gaskets, seals, O-rings and lock tab washers required for both the inner and outer primary
- •Primary oil change kits include derby cover gasket and 0-rings to properly change primary lubricant once
- •Made in the U.S.A.

WILD 1 / CHUBBYS BLACKOUT SERIES.

11/4" CHUBBY® HANDLEBARS

- •Handlebars are 25% thicker than stock
- •All bars are precision machined (not swage formed) at control mounts, providing perfect fit, form and unsurpassed look
- Designed with fluid bends at precise angles for maximum comfort and control
- Pre-drilled for internal wiring
- •Polished welds and diamond knurled •Work with hydraulic clutch, stock and most custom controls, stock risers and top clamps
- Available in show-chrome finish or Blackout series featuring a semi-gloss black finish to match OEM black switch housings
- •All handlebars work with Throttle-By-Wire as well as cable applications

0601-3852

•Made in the U.S.A.

NOTE: All bars work with H-D® heated grips.

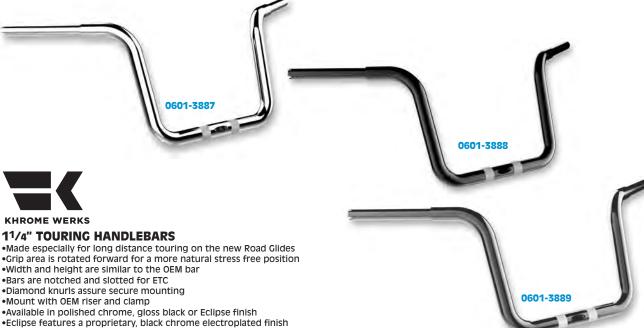

NOTE: Not for use with stock risers and handlebar clamp/gauge mount on 883C/1200C models.

NOTE: Not for FLHT/FLHX models.

MATTE BLACK STAR SERIES HANDGUARDS

- •A great alternative to costly heated grips •Protect hands from road debris and that cold winter chill
- •On hot summer days just simply pop off the featured vent cover to allow the wind to cool hands
- •Handguards require mounting bracket kits to install ENGINE
 - •Mounting brackets are CNC-machined from 6061 billet aluminum and anodized in a black finish to match stock Harley Davidson controls
 - Optional LED Light Kit increases visibility and improves peripheral lighting; simply snap out vent covers and snap in the LED light kit wired directly to battery/12 volt source or by using the included 12 volt waterproof switch

PART # DESCRIPTION SUG. RETAIL HANDGUARDS 0635-1471 Matte black \$41.95 MOUNT KITS 0635-1474 For 14-16 Touring models w/mechanical clutch (except FLHR) 99.95 0635-1472 For 08-13 Touring models w/mechanical clutch 99.95 0635-1473 For 96-07 Touring, 96-14 FXST/FLST, 96-16 FXD and 96-03 XL (except V-Rod and CVO models w/hydraulic clutch) 99.95 **OPTIONAL COMPONENTS** 0636-0107 LED light kit 59.95

Models with turn signals mounted to stock controls will require a turn signal relocation kit not included.

HEAVY INDUSTRY CUSTOM MIRRORS, STEMS AND ACCENT KITS

- •Mirror heads measure approximately 6" L x 3" W
- •Mirror stems measure 6" L; position the mirror approximately 4" above and 51/2" outward from the mirror mount
- •Stems are designed for use with most Kuryakyn mirrors that attach to the stem using a hex-head fastener
- Accent kits allow you to change the look of the mirror backs with custom trim
- Mounting hardware included

 Sold in pairs DASHES

NOTE: Not compatible with Kuryakyn handlebar dress up kits.

HANDLEBAR CABLE/BRAKE & CLUTCH LINE/WIRE KITS AND COMPONENTS

- •Take "cable calculation" headaches out of swapping handlebars
- •Individual components for all kits are available as listed
- •Made in the U.S.A.

COMPLETE KITS

- •Kits include the correct length braided brake/clutch lines and wire extensions to complete a handlebar swap
- •Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- •Black vinyl/stainless kits include black vinyl clutch line and brake lines with chrome fittings, banjo bolts and crush washers
- •Midnight series kits include clutch line and brake lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

STANDARD KITS

- •Kits include the correct length brake/clutch lines and wire extensions to complete a handlebar swap; electrical wire extensions not included (available separately)
- •Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- •Black vinyl/stainless kits include black vinyl clutch line and black stainless brake lines with chrome fittings, banjo bolts and crush washers
- •The midnight kits include stainless steel brake lines and clutch lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

FRONT BRAKE PADS

- •Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the
- U.S.A.; second-to-none in their stopping abilities and wear characteristics while still providing excellent reduction in noise and dust
- •Organic Kevlar® pads are the perfect choice for polished or chromed rotors and Billet Steel Rotors
- •Both compounds of Drag Specialties brake pads are asbestos, nickel, and lead free
- Sold in pairs

NOTE: If you are using aftermarket billet steel rotors it is recommended you use our Organic-Kevlar® brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

JL SINTERED METAL BRAKE PADS

- •An excellent, economical choice for replacing OEM sintered metal brake pads •Pad consists of 50-60% copper combined with carbon, ceramic, tin and abrasives
- •Iron backing plate is plated with copper to make it a stronger bond with the pad friction material
- Powerful stopping power in wet or dry conditions
- •Excellent initial pad bite, lower lever effort and minimal pad bed-in time required
- Can be used with stainless steel rotors

RJL HIGH-PERFORMANCE RACE PADS

- •Give superior stopping power with no fade
- •Excellent initial brake pad bite
- . Good feel at the lever

1721-0172

- No bedding-in is required
- •Hard brake pad backing plate will not warp, even under extreme use

LOOKY LOOKY FUEL/OIL GAUGE

- •Fuel/oil gauge is perfect for any application riders see fit
- •Gas, oil, water, any fluid they need a gauge for
- •Just lean over and take a look to see if chosen fluid is running low
- •Machined out of mild steel, and dished out to fit a rounded or flat surface
- Easily weld the bung to any metal surface
- •The entire bung measures a total of 2" outside to outside
- •A 15/16" hole needs to be drilled in your surface for mounting
- •Gauge is 3/4" NPT

TRAILER WIRING HARNESS AND RELAY

- •Eliminates overloading stock lighting or accessory circuits
- •Harness utilizes inputs from the motorcycle to direct power from the battery to the appropriate trailer lighting circuit
- •5-Wire Plus 1 kits provide standard five-wire output (run, brake, turn left, turn right, ground)
- •4-Wire Plus 1 kits provide standard four-wire output (run, left turn/brake, right turn/brake, ground)
- •All Plus 1 kits include a bonus wire that can be connected as needed to provide fused 12V power to the trailer for compartment lights, keyless entry systems or other systems that are wired independently of the trailer's essential lighting
- •4-Wire kits include flat-4 connector; 5-Wire kits do not include receptacle kits due

to the style of receptacle required varies by trailer manufacturer

DLEGEND AN (ED

AXEO HIGH-PERFORMANCE FRONT SUSPENSION SYSTEM

- •Improve the stability, cornering and traction of your motorcycle
- •Smooth, controlled ride quality; kits eliminate front-end dive during aggressive braking and maneuvering
- •Firm feel for high-speed sweeping turns
- •Eliminate bottoming out on large bumps or potholes
- •Reduce dragging of floorboards or pegs
- •Kits include two mono-tube, dual-chambered fork damping cartridges
- •Cartridges have nitrogen chambers with internal floating pistons
- Machined 303 stainless steel threaded fork preload adjusters
- •Increased range of preload settings allows fine-tuning of the front suspension for riding style and rider weight Performance fork spring rates
- •Designed for optimum performance with Legend® rear suspension systems
- Available in standard height
- Easy installation
- •17 AXEO models retain the new dual-bending valve technology of the stock fork leg
- •Includes quart bottle of Maxima racing fork oil
- •Made in the U.S.A.

PART # **DESCRIPTION** SUG. RETAIL 0414-0519 For 17 FLHTCUTG/FLRT \$749.95

MONOTUBE CARTRIDGE FORK KITS

- Asymmetrical design places a preload adjuster over a progressive rate spring in one leg and an aluminum-bodied, sealed cartridge damper on the other; providing superior damping and ride control combined with tunable preload and a new benchmark for high performance suspension
- Improves resistance to front brake dive, front end stability, cornering and bottoming control
- ·Adjustable to standard length or to lower the front end up to 1"
- Complete fork internal replacement kit
- •No modification for forks required •Made in the U.S.A.

FORK SPRINGS

- •High-quality, high-performance replacement fork springs
- •A Progressive Suspension rate spring has the advantage of a rising rate resistance to compression
- •The benefit is the spring can be soft enough at the start of the travel to offer a "plush" ride, yet firm enough at the end of the travel to soak up the big bumps
- •Spring rates have been chosen to reduce front-end dive during braking, yet still provide excellent ride comfort
- Sold in pairs
- •Made in the U.S.A.

ONE-PIECE ALUMINUM WHEELS

- •These forged wheels place the highest material strength in the same direction as the operating load, creating a light and strong wheel
- •Feature the contour rim lip for a graceful arc from rim to lip
- •Contrast Cut™ finish starts with a polished wheel that has been black anodized, then recut to open up the design; Platinum Cut takes the process one step further by polishing the recut areas to a brilliant shine
- Made in the U.S.A.

NOTE: For matching pulleys and rotors see TRANSMISSION & DRIVELINE and BRAKES sections.

NOTE: 14-17 FLHT/FLHR/FLHX front wheels include fender relocation brackets for use with stock front fenders.

NOTE: 09-13 FLHT/FLHR/FLHX/FLTR front applications require the use of the OEM spacers.

WHEEL BEARING ADAPTER KITS

- •Never again will you have to pass on a good deal at the swap meet because
- a wheel you want has the wrong bearings
- •No more fighting with the wheel to remove the old bearings, only to have to fabricate a new inner bearing spacer
- •Adapter kit PART #0215-1034 takes 25mm wheels and reduces them down to fit a 3/4" axle
- •Adapter kit PART #0215-1035 takes those 1" bearings and necks them down to fit a 3/4" axle
- Won't change existing wheel spacing
- •Solid stainless steel construction to prevent corrosion
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0215-1034	25 mm to 3/4" bearing adapter	\$39.95
0215-1035	1" to 3/4" bearing adapter	39.95
